EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Bujold on Monday, June 27, 2005.

The application has been amended as follows: In claim 16, "said service brake" was changed to "a service brake" to correct a lack of antecedence.

The following is an examiner's statement of reasons for allowance: The claims are allowable because the prior art does not anticipate nor render obvious the claimed combination of: a power train for a mobile vehicle comprising: an internal combustion engine (1) which drives a reduction gear (4) via a hydrodynamic torque converter (3), there and a primary clutch (2) being situated between said internal combustion engine (1) and said hydrodynamic torque converter (3); and at least one power take off (6) which communicates with said internal combustion engine (1) for driving at least one consumer (7); wherein said torque converter (3) is designed so that when said internal combustion engine (1) is under full load, and said consumer (7) is and not activated and the vehicle is stationary, said internal combustion engine (1) is operated close to its maximum torque.

No particular single feature of the claim renders the claim as a whole patentable. Only the claim taken as a whole combination is deemed new and unobvious.

Art Unit: 3681

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
